## BARREL REVIVE

### DESCRIPTION

BARREL REVIVE is a concentrated free flowing powder which is an effervescent oxygen treatment for tainted barrels and general barrel hygiene.

### APPLICATION

BARREL REVIVE is a specialised treatment for the internal surfaces of tainted oak barrels. Through the oxidising action of BARREL REVIVE sanitises against microbes, including Brettanomyces.

The treatment also absorbs off odours associated with VA and Brettanomyces as well as neutralises excess sulphur and chlorine.

Revives barrels otherwise considered beyond further use and can decolourise barrels stained with red wines for use with white wines.

### ACTIVE CONSTITUENTS

pH value 6.5–7.5 (1% solution)

Available Oxygen 3.0% w/w minimum

### BENEFITS

- White free flowing powder which is easy to dissolve
- Highly concentrated for economy in use
- Low foaming formulation to improve rinsing of tanks
- Due to its oxidizing power, it cleans and sanitises in one process

### DIRECTIONS FOR USE

1. BARREL REVIVE is used at the concentration of 1.0–1.5kg/100L (1.0–1.5%w/v) in hot water.
2. Rinse Barrel with clean potable water.

### HEALTH HAZARD INFORMATION

See separate Health and Safety Data Sheet available on request.

### SUITABILITY OF CHEMICALS FOR FOOD PREPARATION AREAS

BARREL REVIVE is suitable for use in food processing plants.

### PACKAGING

- 20kg White Poly Pails
- 220kg closed head poly drums
