

Manual Gravity Filler

Choose from 4 and 6 head

Suitable for wine and spirits.

Gravity filler made entirely of AISI 304 stainless steel, with adjustable and fully removable filling heads for complete and quick sanitization.

Available in benchtop with 4 adjustable feet or in the freestanding trolley version with four wheels and pyramidal support platform.

The filler bowl can be equipped with either a mechanical float or an electronic level sensor which controls the pumps.

On both models, stainless steel valves, height-adjustable bottle support surface, and level indicator are supplied as standard.

Options:

- Benchtop or free standing
- Filling pump
- Inline filter
- Nitrogen injection valve
- 100 C ° kit for hot pasteurized liquids
- ATEX kit
