

EUROPRESS EV

HYDRAULIC VERTICAL PRESS

THE FINEST ART OF GRAPE PRESSING

EUROPRESS EV 6 | EV 12 | EV 24

MADE IN
GERMANY

Solid and high-quality design

Hydraulic components in highly demanding industrial standard

Intelligent pressing programs and speed control

Real-time visualization

Low height of construction as the cylinder can fully be retracted

Suitable for minimum quantities

Steel parts with high-grade 2 component polyurethane acrylic paint

SOLID AND HIGH-QUALITY DESIGN

- Stainless steel housing of control cabinet and hydraulic unit
- Low height of construction as the cylinders can fully be retracted for optimal transport
- Adjustable legs

PRESS BASKET WITH SPLASH GUARD MADE OF STAINLESS STEEL

- Press basket with laser-made slots in 2 different widths for optimal juice flow and quality
- Splash guard in stainless steel, tool-free and quick to remove
- Second basket for efficient pressing and emptying, as an option

VARIABLE SPEED HYDRAULIC DRIVE

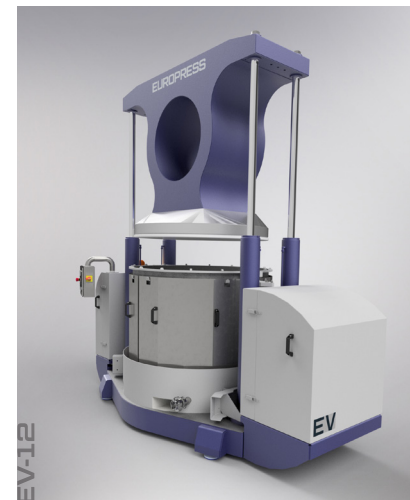

- Hydraulic components in highly demanding industrial standard
- Hydraulic drive with 8 pressing speeds, + overdrive for fast lowering and raising of the pressure plate
- Intelligent cruise control
- 4 cylinders for pressure build-up. (EV 12 | EV 24) Maximum pressure on the mash: 6 bar
- 2 additional lifting cylinders to raise the press basket (EV 12 | EV 24)

MAXIMUM EASE OF USE

- Press basket with flexibly usable must collection tray
- Pressure plate made out of food-grade plastic, suspended from the pressure plate
- Drainage plate made out of food-grade plastic
- Centering bolt and side walls for secure positioning of the juice tray and the basket

INTELLIGENT CONTROL

- New generation 10" widescreen touch panel
- Up to 50 freely adjustable pressing programs (up to 90 pressure levels)
- Integrated intelligent press programs
- Live visualization of the cycle (display in real time)

EUROPRESS EV | OPTIONS

- Separate, specially adapted juice tray
- Level control for separate juice tray
- Press leg extensions by 300 mm
- Heavy-duty castors also in connection with press leg extensions of 300 mm (instead of adjustable feet)
- Additional press basket for higher pressing capacity
- Drainage mats for inserting in the press basket
